
Save Life On Earth International Posters 326 Harvard St Cambridge MA 02139 USA Telephone 617 491-4948

Dear Artist,

THE EXHIBITION TOUR IS OVER AFTER THREE YEARS, 14 CITIES AND 10 COUNTRIES.

After four years of working together, the artists and non-artists who organized and carried out "Save Life on Earth" are tired, although it was a wonderful experience for all of us. If we have made mistakes or neglected any artist, please forgive us. The project was carried out with very meager funds and not one of us has been paid a salary or received any financial compensation for working on the exhibition, the tour, the book, etc. We are still working to repay the small debt which remains.

We are sad to dismantle the exhibition because it can never be put together again. Its power was not only the result of many outstanding individual works, but of the cumulative effect of contrasts, similarities and juxtapositions by artists from different continents and cultures and from countries with opposing political systems. It made people laugh, reflect, think, become angry, and even cry.

We enclose the last review, which appeared in the Boston Globe. Please note that the exhibition in the Great Hall of the Boston Public Library was sponsored by a wide variety of community and cultural leaders, including Kitty Dukakis, whose husband may become the next President of the United States. We will continue to encourage her longstanding opposition to nuclear weapons.

As a small token of our thanks we enclose one of the posters reproduced by International Physicians for the Prevention of Nuclear war. We also ask again if you received the catalog; each time we have asked, a few people replied that they had not. We thank each of you for your contribution and for helping to make the exhibition possible. We hope to keep in touch with you.

With best regards,

Nyna Israel Polumbaum
for the entire Executive Board
1 June 1988
